### (a) Capital assets

Capital assets are recorded at acquisition cost less accumulated amortization. The assets are amortized on a straight-line basis at the following rates:

### (b) Revenue

Funding contributions from the Saskatchewan Oat Development Commission and the Manitoba Oat Growers Association are recognized based on a cost-sharing agreement between the three parties. Related revenues are recognized in the year in which the expenses included in the cost sharing agreement are incurred.

Conference and meeting registration revenues are recognized when the related conference is held and any conditions relating to the revenues have been fulfilled.

### (c) Estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires the organization to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reported period. These estimates are reviewed periodically and, as adjustments become necessary, they are reported in earnings in the period in which they became known.
