1. Nature of Operations

The organization was formed on July 25, 2008. The Manitoba Oat Growers Association is designated as the representative organization of all producers of oats in Manitoba, pursuant to The Manitoba Oat Growers Association Designation Regulation ("the Regulation"), under the authority of The Agricultural Producers' Organization Funding Act of Manitoba. The main purpose of the organization is to fund oat research, market development and education. The organization is not subject to income tax.

2. Significant Accounting Policies

These financial statements are the responsibility of management and have been prepared in accordance with Canadian accounting standards for not-for-profit organizations (ASNFPO) using the accounting policies as summarized below:

(a) Cash and cash equivalents

Cash and cash equivalents represents cash on hand and cash held in banks.

(b) Revenue

Under the Regulation, each producer is required to pay the organization a fee of \$0.50 per tonne of oats sold in Manitoba, collected upon the purchasing of the grain from the producer. Producers may request a refund for fees paid in the year by submitting a written request within time limits as defined in the Regulation.

Producer fees are recognized when they are collected by registered oat buyers. Refunds are recognized as requested by producers in the same fiscal year as the related revenue is reported.

Investment revenues are recognized on an accrual basis as the income is earned.

(c) Financial instruments

Measurement of financial instruments

The organization initially measures its financial assets and liabilities at fair value, except for certain non-arm's length transactions.

The organization subsequently measures all its financial assets and liabilities at amortized cost, except for investments in equity instruments that are quoted in an active market, which are measured at fair value. Changes in fair value are recognized in excess of revenue over expenses.

Impairment

Financial assets measured at cost are tested for impairment when there are indicators of impairment. The amount of the write-down is recognized in excess of revenue over expenses. The previously recognized impairment loss may be reversed to the extent of the improvement, directly or by adjusting the allowance account, provided it is not greater than the amount that would have been reported at the date of the reversal had the impairment not been recognized previously. The amount of the reversal is recognized in excess of revenue over expenses.
